

SHIV KUMAR PASWAN *AI Developer*

✉ kshiv7792@gmail.com ☎ +919771171907 🌐 Shiv Kumar Paswan 📍 Bangalore 🔗 GitHub

👤 Profile

Experienced Data Scientist with 4+ years in developing AI/ML models, specializing in financial analysis, Generative AI, and data-driven business strategies. Proven track record in leading high-impact projects, building predictive models, and optimizing real-world processes in dynamic environments. Proficient in cloud technologies, ML frameworks, and big data tools, driving innovation and delivering actionable insights across various industries.

🧠 Skills

Programming Languages & Tools

Python, R, SQL, C++, Advanced Excel, PowerBI, Tableau, Looker, Dashboards & Reporting

Machine Learning

Generative AI (GenAI), NLP, Classical ML (Clustering, Regression, Classification), Time Series Forecasting

Cloud, APIs and Web Services

AWS, GCP, Heroku, Microsoft Azure, SaaS, Containerization (Docker, Kubernetes), REST

Scientific Fundamentals

Descriptive Statistics, Hypothesis Testing, Sampling Methods, Correlation and Causation, Exploratory Data Analysis (EDA)

Version Control

Git, IDE Integration (VS Code, PyCharm), CI/CD Tools (Jenkins, Travis CI, CircleCI)

Financial Markets Data

Building ML models, statistical approaches, time series analysis, technical indicators.

Big Data Technologies

PySpark, Azure DataBricks, AWS, GCP, Microsoft Azure, Docker, Kubernetes, SaaS

📁 Professional Experience

Yokogawa, AI Developer

Led the development of AI-powered knowledge systems at Yokogawa, including SmartChat—an enterprise LLM assistant enabling accurate, citation-driven responses for complex engineering documentation. Architected and optimized Azure Cognitive Search pipelines and prompt frameworks to deliver scalable, high-precision AI solutions across product and support teams.

Sep 2025 – Present
Bangalore, India

TechPay.AI, Data Scientist

- Developed and deployed machine learning models that improved financial data analysis by 30%, driving more accurate predictions and insights for clients.
- Collaborated with cross-functional teams to integrate AI solutions into product development, resulting in a 20% increase in operational efficiency.
- Created and automated PowerBI dashboards, allowing stakeholders to visualize complex data and make faster, data-driven decisions.

Sep 2024 – Sep 2025
Bangalore, India

AiSPRY/360DigiTMG

Project Consultant

As a Project Consultant at AiSPRY in Malaysia, I lead projects focused on data science and analysis. My role involves guiding teams in leveraging data to derive insights, driving strategic decisions, and enhancing project outcomes in the data analytics domain.

Jul 2023 – May 2024
Malaysia

Data Scientist

Data Scientist with 2+ years in Machine Learning. Proficient in SQL, Python, Advanced Excel, Power BI, Tableau, and PySpark. Expertise in developing impactful data models and evaluating them on Azure, GCP, and Heroku. Strong skills in applied analysis and problem-solving for strategic decision-making and business growth.

Dec 2021 – May 2024
Bangalore

KPMG, Data Analyst Intern

- Analyzed large datasets using Python, R, and Excel; created reports and dashboards in Tableau and Power BI for management insights.

Nov 2021 – Dec 2021
Hyderabad

📁 Projects

Smartchat Ai agent

ChatBot & Vision Voice Gen_AI

Image-to-text processing

Medical Inventory Optimization and Forecasting

Mental Health Wellbeing Analysis at Pandemic Times

Customers' Credit Scoring Analysis In Pharmacy

Wind Turbine Failures

Inventory management system for steel rods

Plant health monitoring

Education

Millia Institute Of Technology, B.Tech - "Computer Science and Engineering"

CGPA: 8.3

Focussed in: Data science & Analysis

2017 – 2021

Patna, India

Certificates

IBM

-Data Science using Python

-Python 101 Data science

Great Learning Academy

Generative AI

NASSCOM future skills

-Data science

-Python Fundamental

360DigitMG

-Data Science using Python

-Data visualization using

Tableau

-Data Visualisation using Power

BI
